COMPOSÉ

IL GIOCO DEGLI ABBINAMENTI

Tela e cornice. Anta e coprifilo.

Nella collezione COMPOSÉ i due elementi acquisiscono una propria identità e dialogano con l'architettura degli interni per fornire sempre nuove soluzioni d'arredo.

Le infinite possibilità cromatiche e la larghezza variabile fanno assumere al coprifilo, e al relativo imbotta, un ruolo di mediazione tra la parete e la porta: nel divertente gioco degli abbinamenti diventa allora possibile esaltare le 6 preziose finiture incorniciandole nel proprio telaio o lasciandole uniche protagoniste della scena.

Canvas and frame. Wing and cover strip.

In the COMPOSÉ collection, these two elements acquire their own identity and interact with the interior architecture to provide ever-new furnishing solutions.

The endless color options and variable width make the cover strip play a mediating role between the wall and the door: in the fun game of combinations, it is then possible to enhance the 5 precious finishes by framing them within their own frame or leaving them as the sole protagonists of the scene.

Toile et cadre. Battant et chambranle.

Dans la collection COMPOSÉ, ces deux éléments acquièrent leur propre identité et interagissent avec l'architecture intérieure pour offrir constamment de nouvelles solutions d'aménagement.

Les options de couleurs infinies et la largeur variable font du chambranle un rôle de médiation entre le mur et la porte: dans le jeu amusant des combinaisons, il est alors possible de mettre en valeur les 5 finitions précieuses en les encadrant dans leur propre cadre ou en les laissant comme les seules protagonistes de la scène.
